- Fiberglass wallcovering with high tear resistance, ideal for restoring walls with cracks or irregularities. Ideal for wet areas, kitchens and bathrooms (with subsequent Mapecoat Decor Protection treatment).
- Apply with specific past glues directly on the wall. High tear resistance.
- For cleaning, use neutral detergents.

It is possible to add or delete some elements of the composition and to change the colour gradation. The designs can be rearranged into a different format from the standard one. The dimension of the single detail and the proportion of the whole design can change in the adjusting process. The printing on wallpapers could show chromatic differences both from the catalogue and the renderings on screen.
